RE: CCSC-RM '22: 2022 Annual Computer Science Conference

In-Cooperation with: SIGCSE

Dear Shawn Chiappetta;

I am pleased to advise you that we have completed the review of your Technical Meeting Request Form (TMRF) and have approved the above-mentioned meeting for in-cooperation status. This allows you to place the logo found below on conference material for CCSC-RM '22 only. Workshops and co-located events must apply for cooperating status to reference ACM.

<http://identitystandards.acm.org/acmincooperation/acm-in-cooperation.html>

Along with the ACM In-Cooperation logo you may also use the appropriate SIG logos(s).

Here is the format that must be used:

Please do not include ACM in the name of the conference. Instead you may indicate the event is in-cooperation with the ACM/SIG listed above.

The conference dates have now been placed in ACM's calendar of events located on the ACM web site. ACM should not be placed in the title of the event.

In accordance with the ACM in-cooperation agreement, please note the following:

- 1) Registration and proceedings fees will be the same for ACM members as for other sponsoring organizations, and there will be no differentiation in fees between academic and corporate participant registration fees.
- 2) A brief report should be submitted in writing within 120 days post-meeting. The report will be forwarded to the SIG leaders for review and should summarize the following:

Number of attendees in each of the registration categories,
Number of paper submissions and number of acceptance papers,
General assessment of the technical quality of the papers and
Any problem areas encountered by the meeting
High level final budget numbers

Should you have any concerns or require assistance, please contact us at our cooperating email address: incoop@acm.org.

I wish you luck with your conference.

Sincerely,

DocuSigned by:

Donna Cappel
